Hi everyone! I want to talk about our country and recycling in our country. Not all people understand the necessity of recycling. I think it's not good. So, everybody should know about a recycling. With recycling, our country will be clearly. For this, our president decide to built a special recycling factories. And it is really good, I'm really happy when I remember it. Sounds good, are you agree with me? And now, at our streets we have a lot of special recycling boxes. We can throw out our rubbish for a category. Glass, can, pocket and another rubbish that we can recycling. It is really good! And it is work. People who live in my street, use these boxes.

Did you hear about a global warm? This disaster comes to us, because we are throw our rubbish on a street. And after that this rubbish not be recycling. ~~And our the rubbish can be~~. It's really bad for our planet. A lot of factories damage our earth and our air. Sounds not good. Because I want to live in a clean country. And I want that my relatives and parent live in a comfortable and clean country. I think it's my dream bright now. I think about people will understand that. And never throw out a rubbish.

Hi Mary!

I have read your email and now, when I know about your fear of dogs I want to help you to end up with your phobia. There are a few ways, that I recommend, that I think might be helpful for you to stop being afraid of dogs.

First of all, try to go to the park and watch dogs from the distance. I think watching dogs walking in the park can make you less afraid of dogs and you won't be afraid if you see one on the street.

Then, when you less scared of dogs, try to ask someone who has a friendly dog to take the pet for a walk. You will see, that dogs aren't scary, most of them calm and funny, and there is nothing to be afraid of.

I wish my advice might be helpful for you.

Text me about how it's going and will you become less afraid of dogs.

Wish you well.

Your friend Allyna.

I am really glad to read your letter, my dear friend. Unfortunately, I cannot influence on this situation, nevertheless I have already had some advice for you. I hope they will help you with your problem.

Firstly, if you calmly explain your parents reasons why you want to visit this summer camp, they will understand you. As I suppose, relevant words in a dialogue can change parents' opinion.

In addition, I want you to say that you are going to take responsibility for yourself, I think it is nonnegotiable that you can do this.

From my point of view, if you could take your siblings with you, your parents would be very happy, so you should try to suggest them my idea.

I wish you could visit teenagers' summer camp with your friends, moreover I think some of my advice will help you. I miss you so much, I hope your parents let you go to this place.

With best wishes, Daniya¹⁵⁰

In my opinion, confidence is the most important characteristic that a person can have to be successful in life.

First of all, confidence helps you gain other less important characteristics, such as intelligence, honesty, bravery etc.

If you aren't confident, you can't even normally talk to someone. You always think about other's opinion, about

As a man, you should understand that you must

be strong and confident enough to protect your loved ones.

But if you want to be confident, you must talk with right people, learn about self-respect, ^{and} self-improvement.

For example, my dad and my mom are the most confident persons in the world, they are honest, polite, clever and have a brilliant sense of humor, but the most important thing is that they are confident.

I always thought that confidence is a key to success.

In conclusion, I want to say that there are many important characteristics, but the most important is confidence. If you have enough confidence, this world is yours :)

It is not a secret that in our days technologies become one of the most significant aspects which we buy for comfortable life. We just can not imagine our existing without smartphone, laptop, coffee machine and other types of gadgets, cause it's like an addiction. So I am literally maintain the idea, that sounds like "Technologies created the best best plane to easy life".

At first, it is crucial to highlight that thanks for technologies humanity every day develop a lot of new places, planets. Moreover, we easily can move to them and travel thanks for airplanes, ships, cars which are also technologies. Astronauts got a chance move between planets around the space and it is not fantastic, it is a result of development of technology.

Secondly, invented many robots, machines to make a world cleaner. Saving ecology is one of the main goals today and there are ~~there~~ uncountable factors that makes situation with planet sad. The largest percent of this problems can be changed only with special inventions. For example it is impossible to clear ocean from oil with human possibilities, we need a machine that can filter water.

Overall, our world become better because of gadgets. Maybe in future other planets also will change thanks for technologies, cause overwhelming majority of galaxies are known for us. We all see how our world change and it will never stop to look better while gadgets are develop.

Our life contains various matters and happiness. In case
staked with problems, we rely on our mind. Avoided and solve
them typically antonyms.

We do not know what future holds. Some troubles
can be seemed simple, yet try to put yourself to their
shoes. Not everything that is learned is contained in books.
There are big difference between knowledge gained from
books and by experience. But, the way of wise connect them.
Knowledge gained from books clarifies to be honest and
expands your horizons. This knowledge teaches you how to
put up with different situations, correct acting step by step,
not lose yourself among so many objects. We read and
make conclusion as never since. Books gives so many information
as a decision. How it been showed to us? By someone's story
or simple text which had written with one goal. So, there
is the role of books' knowledge. From one point this is obvious
that books ^{are} source of wise. This is the key thought.

If we know about decisions, we can find ways (of) to learn of everything knowledge gained from experience shows us how to behave. Subconsciously teaching helps to understand the situation. From other point knowledge gained by experience vital too. But in my opinion, knowledge gained from experience (im) is more important.

Trying to connect both sources is the best decision. Separate from each other is mistake.

A) We live at the time where money is important and necessary for our life. We all need and want money, include teenagers, because, they also have to need a clothes, a new gadgets, money for food or lunches etc.

Teenagers want to earn money on their own to be independent from parents and not to ask money from parents. However earning money is quite difficult action. At the beginning teenagers may not be patient, they may give up working because of its difficult etc, but if they will keep working, they will learn a discipline, they will be hardworking persons and they will know the cost of money.

Because of that these teens are not at their 18th yet, they can work only in a half-time job.

From my point of view, teenagers can work, because it brings a lot of benefits, and when teenagers will have grown up, they will know the cost of money and how hard to earn it.

Essay

Hello, darling friend!

I think you have a big problem with your parents. In my opinion I can help you. Because summer camp with your friends it's a great idea. You should go there. If you go to summer camp, you will have a good experience. Suddenly, you have to spend summer holidays with your siblings. But don't worry about this. I can help you with this tricky problem.

I know your parents are strong with you. But you have to change their decision. I have some ideas how to sell this problem. Firstly, make their mind. Be very polite with your parents. Please, don't be rude or aggressive. You should show ^{that} your responsible person in family. You can take decision and be calm in difficult situation. Take care about your siblings every single day, try to be kind. Secondly, say them how is important to go to summer vacation. On other hand, staying at home it's a bad idea. Because you do not have a wonderful memory. Spend this summer holidays with your close to friends always good. And you shouldn't spend this holidays with your siblings. Why? Due to you can spend your time any day of life. You always ~~leave~~ look for your siblings. It's boring at home. Thirdly, you may say to your parents what you will do if you go to this summer camp with your friend. For example, do your housework in time. Maybe after this summer vacation you look for siblings.

I hope you can get my ideas. Don't give up! You ought to be patient. Stay calm! I will always support you in difficult time.

Our parents worry about us and so don't be angry with them.

I wish you luck. If you want to go holidays, don't change your decision.

I really want to go on teenagers' summer camp with my friends this summer vacation but my parents won't let me. They gave me two options - the first that I'm too young to spend the weekend adults, and the second that I have to spend 10 days with my siblings. But for 14 years old and it's so boring at home 'the summer'

A) Should teenagers go to work?

Nowadays, teenagers used to take a part-time jobs. It is the best way to be financially independent. Sometimes, parents try to help with research or even getting a job, because it is legal in our country.

First and foremost, teenagers should go to work at their earliest convenience due to their growth in society. They would make money by themselves. Moreover, their parents will not aid them financially.

Secondly, they will communicate with lots of people, find solutions from complicated situations.

Thirdly, they will know their future. Making mistakes and learning from them is going to benefit them.

In my opinion teenagers have to go to work. They will see a new world. It can be hard at first, but meeting new friends, having your own cash is better than waiting for graduation and help from parents.

In conclusion, teenagers have to find a work because it is the best way to experience more things and have great memories in your life.

Should teenagers go to work?

This question is popular among parents, teachers and so on. Most of them suppose that it is normal, but other of them do not agree.

In my opinion working teenager it is good.

Firstly, the teenager is able to purchase everything that he wants by himself.

I work as a waiter and I can say that having own money is better than take care about it. I have enough money to buy things that I want or if I have enough money to buy some food if I am hungry.

Secondly, this teenager can not ask his parents for money. And I would say that is very good when teenager doesn't depend on his parents. Just imagine you have just got a salary and you are able to buy everything that you wanted before. This is a good feeling, right?

And ~~retire~~^{imagine} if this feeling feels teenager.
All in all I can say that teenagers should go to work.
